

PERMIT FEES & PERMIT APPLICATION PROCESS

Building Permit and other applicable fees will be calculated after your application is reviewed by the various departments within the Municipality. Remember, until such fees are paid a Building Permit has not been issued. Any construction prior to a permit being issued may result in legal action. If in the process of reviewing the application it is found additional information is required and if we are unable to contact you by phone we will forward a letter to you stating specifically what is required in order for us to continue the processing. It is suggested that you respond to our requests for information as promptly as possible in order to avoid any further delays in obtaining your permit.

PERMIT FEE SCHEDULE

By-law 2016 - 11

PERMIT ISSUANCE

Your building permit will be at the front counter upon completion of our review of your submission

NOTE: All fees must be paid before the building permit will issued.

The Building Permit Card must be posted on the construction site for the inspector to verify at all times. The permit drawings and documents must also be available on site for use by the various inspectors assigned to your project. Please read the permit documents thoroughly before commencing construction. The construction must be in compliance with the plans and documents issued with your permit. Any deviation from the approved drawings must be reported to the Chief Building Official in the form of an Amendment. Please contact the Building Department should this situation arise since, depending on the degree of change, amendments can get quite complicated.
