Data-Informed Decision Making

- We have been working to enhance our data analysis capabilities.
- We have begun building dashboards in Power BI to visualize the true impact of our prevention work
- Our By Name List work shows the progress we have made towards our goal of making homeless rare, brief and one-time....

By-Name List

The By Name List is a real-time tracking tool that measures inflow and outflow of homelessness and supports the System of Care towards coordinated housing focused solutions

A full review was completed in 2025 to ensure accuracy and alignment with the definitions and triaging algorithm

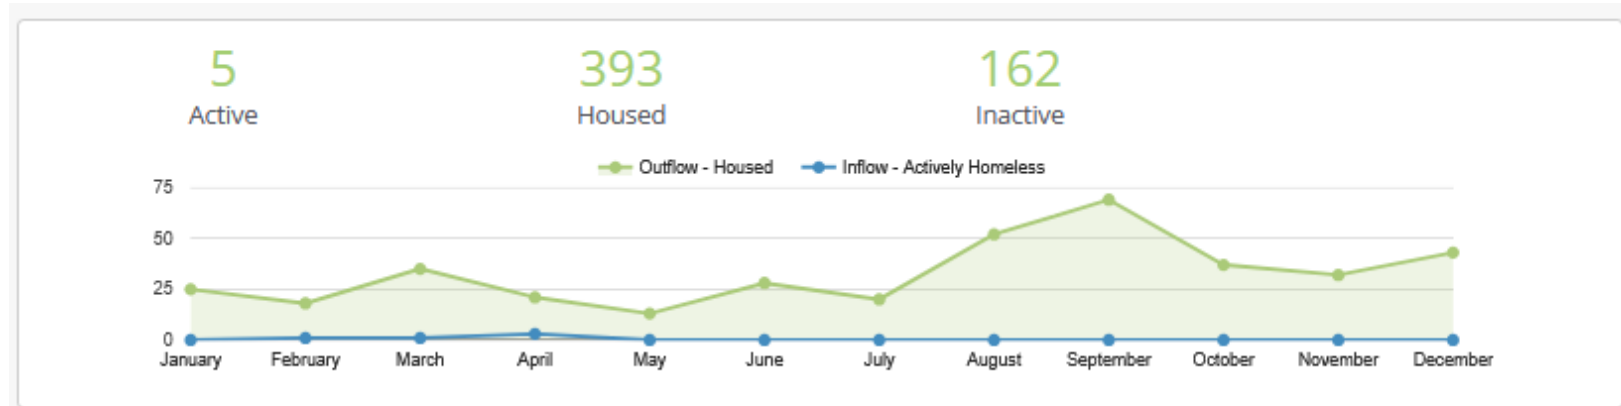

Continuous monitoring is undertaken to ensure data accuracy and maintain real-time awareness of homelessness and people's inflow and outflow status

We use this data to prioritize clients who may be eligible for our Mental Health program, Rent Supplements, The Canadian Ontario Housing Benefit, access to our Transitional Unit Program, Special Priority Program etc.

Reflections from 2025

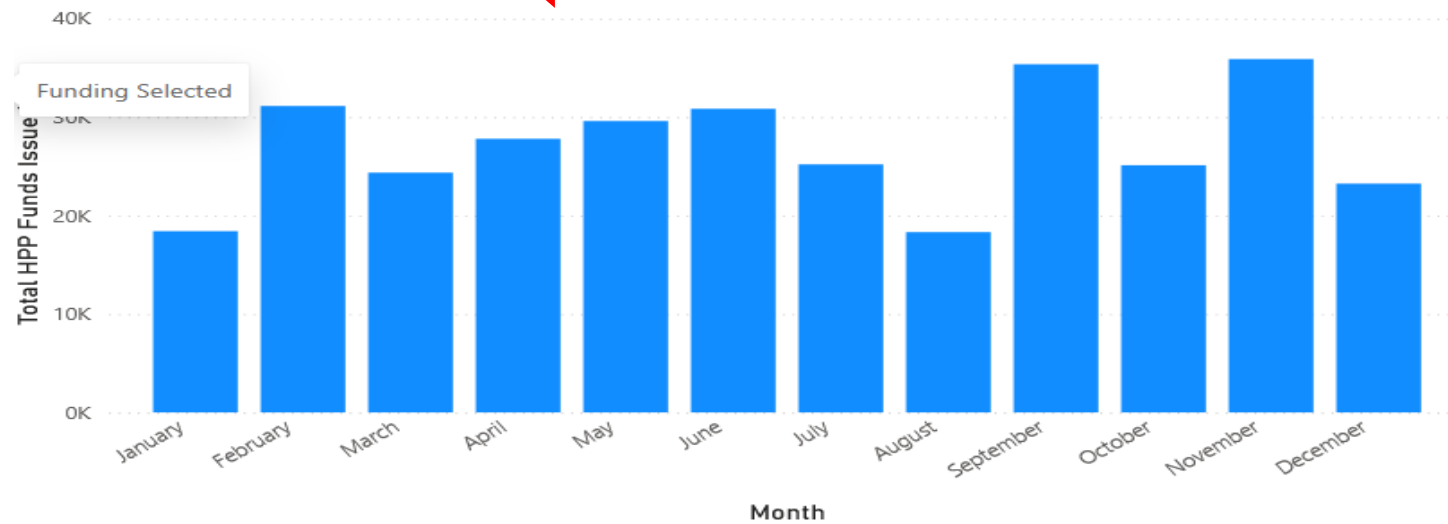

Homelessness is a structural issue, and structural issues are fixable.

Communities across Canada are showing that prevention works. Let's keep building toward a future where homelessness is rare, brief, and non-recurring.
