RESOLUTION 2024-354 Bishop-Hetherington

WHEREAS the Municipality of Magnetawan recognizes how vital the Forestry Industry is to the Economy in Ontario and the success of the forest sector is critical to the economic and social prosperity of Ontario communities, employing 137,000 people;

AND WHEREAS the forest industry has invested over \$3.8 billion in Ontario since 2018 and Ontario has an opportunity to market global investment in the bioeconomy, similar to critical minerals and electric vehicle manufacturing, and become a leading international jurisdiction;

AND WHEREAS over the last 20 years, the North American pulp and paper sector has seen a significant rationalization in production capacity, with investment dollars going to competing international jurisdictions, and

in the last year, Ontario has seen three pulp, paper, and containerboard mills idle or close, negatively impacting communities and the solid wood mills that depend on these facilities as markets for mill by-products and pulpwood;

AND WHEREAS U.S. tariffs on softwood lumber are expected to double in 2025, to approximately 30% and Ontario should work with federal colleagues to pursue a softwood lumber settlement that works in the best interests of Ontario lumber producers and advocate for a financial backstop;

AND WHEREAS Ontario has an opportunity to procure greater amounts of energy (i.e., electricity, heat, fuels, biochar, etc.) from forestry by-products and forests to assist in heavy industry decarbonization and Ontario's forecasted electricity demands;

AND WHEREAS Ontario's successful and oversubscribed Forest Biomass Program should continue post-2027;

AND WHEREAS Ontario will actively seek investment to restart idled softwood kraft lines in Ontario and Quebec to provide immediate relief for some sawmill producers and Ontario's \$10 million Sawmill Chip Program, ending March 25, 2025, will likely need to continue and expand in the absence of an immediate restart of a currently idled pulp mill to avoid curtailments at solid wood facilities;

AND WHEREAS 5-year bilateral power purchase agreements (PPAs) with forest biomass-fired electrical generation facilities are sufficient and should be expanded both in terms of length and volume to provide communities, industry, and works with a certain future; AND WHEREAS the public Forest Access Roads Funding Program, which provides for public use of Ontario's forests, should be increased to \$75 million/year to reflect inflationary pressures and support legacy infrastructure upgrades (i.e. roads, bridges, and water crossings).

NOW THEREFORE BE IT RESOLVED THAT the Council of the Municipality of Magnetawan supports the implementation of the Ontario Forst Industries Association's 2025 Ontario Budget Recommendations in support of attracting investment and maintaining forest operations and employment in Ontario.

Carried.

RESOLUTION 2024-355 Kneller-Hind

WHEREAS official statistics from the Government of Ontario confirm that rural roads are inherently more dangerous than other roads;

AND WHEREAS, rural, northern, and remote municipalities are fiscally strained by maintain extensive road networks on a smaller tax base;

AND WHEREAS, preventing crashes reduces the burden on Ontario's already strained rural strained health care system;

AND WHEREAS, roadway collisions and associated lawsuits are significant factors in runaway municipal insurance premiums. Preventing crashes can have a significant impact in improving municipal risk profiles;

NOW THEREFORE BE IT RESOLVED THAT the Council of the Municipality of Magnetawan requests that the Government of Ontario take action to implement the rural safety program that Good Roads has committed to lead. It will allow Ontario's rural municipalities to make the critical investments needed to reduce the high number of people being killed and seriously injured on Ontario's rural roads;

RESOLUTION 2024-357 Hind-Hetherington

WHEREAS municipalities face growing infrastructure needs, including roads, bridges, public transit, water systems, and other critical services, which are essential to community well-being and economic development;

AND WHEREAS the current sources of municipal revenue, including property taxes and user fees, are insufficient to meet these increasing demands for infrastructure investment;

AND WHEREAS the Province of Ontario currently collects the Land Transfer Tax (LTT) on property transactions in municipalities across the province, generating significant revenue that is not directly shared with municipalities;

AND WHEREAS the Federal Government collects the Goods and Services Tax (GST) on property transactions, a portion of which could be directed to municipalities to address local infrastructure needs;

AND WHEREAS redistributing a portion of the Provincial Land Transfer Tax and GST to municipalities would provide a predictable and sustainable source of funding for local infrastructure projects without creating a new tax burden on residents or homebuyers;

AND WHEREAS a redistribution of a portion of the existing Land Transfer Tax and GST would allow municipalities to better plan and invest in long-term infrastructure initiatives, supporting local economic growth and improving the quality of life for residents;

NOW THEREFORE BE IT RESOLVED THAT the Council of the Municipality of Magnetawan formally requests the Provincial Government to consider redistributing a portion of the Land Transfer Tax collected on property transactions to municipalities;

AND FURTHER BE IT RESOLVED THAT the Council of the Municipality of Magnetawan calls on the Federal Government to allocate a percentage of the GST collected on property sales to municipalities;

AND FURTHER BE IT RESOLVED THAT this redistribution of the Land Transfer Tax and GST should be structured to provide predictable and sustainable funding to municipalities, allowing for better long-term planning and investment in infrastructure projects that benefit local communities, thus ensuring that local governments receive a fair share of the revenue to address critical infrastructure needs;
