2019 Draft Budget Information for Council

Attached is a revised 2019 draft budget with an overall budget requirement of \$4,643,919. After processing additional changes from the department heads for their individual budgets and recording additional grants that we were notified that we would be receiving, such as top up gas tax funding in the amount of \$92,622.58 and a Municipal Modernization Grant in the amount of \$560,800, as well as revenue from the sale of municipal property, I adjusted the budget requirement to this amount by recording a transfer to asset management reserves.

Using the online property tax analysis program (OPTA) and assuming the education rate remains the same as in 2018(2019 education rates have not been released yet), this requirement will generate an overall residential tax rate of 0.00851491 which is a 3% increase over the 2018 rate. This 3% tax rate increase was the increase council had discussed for 2019. I have attached copies of the reports from OPTA showing the tax impact of a 3% tax rate increase.

I have attached an updated reserve schedule showing the balances at December 31 2018 after adding the 2018 surplus of \$208,353.61 as well as reflecting transfers into and from reserves shown in this draft budget.
