

Energy Policy – Municipality of Magnetawan

1. The Municipality of Magnetawan will allocate the resources to develop and implement a strategic energy management plan that will reduce our energy consumption and its related environmental impact.
2. The Municipality of Magnetawan will exercise stewardship in our finite energy resources to demonstrate leadership, optimize our delivery of services, and enhance the overall quality of life in our community.
3. The Municipality of Magnetawan will incorporate energy efficiency into all areas of our activity including our organizations and human resources management procedures, procurement practices, financial management and investment decisions, and facility operations and management.
4. The Municipality of Magnetawan commits to improve the energy efficiency of our facilities and processes in order to reduce our operating costs, our energy consumption, and the concomitant greenhouse gas emission.
5. The Municipality of Magnetawan commits to reducing our overall consumption of fuels and electricity in all municipal operations by utilizing technology, best practices, training and awareness.
6. The Municipality of Magnetawan will undertake energy audits on its facilities.
7. The Municipality of Magnetawan will utilize and encourage the use of renewable energy where possible.

Adopted by Municipal Council this 12th day of March 2014.

A handwritten signature in black ink, which appears to read "Sam Dunnett", is written over a horizontal line.
