

Request for Proposal – Winter Sand

2022-05 Addendum #3

Q#1 From my understanding the contractor will make the arrangements for the salt, however the township are the ones paying for the salt required?

A#1: In regard to the Addendum we can clarify that we would prefer the Contractor to coordinate and order the salt keeping in mind the Municipality will be paying for the salt, however we will accept bids that are the industry standard that the Municipality as having a Salt Account will order and coordinate with the Contractor. As this is an RFP this will give the Municipality a good idea as to the interest and pricing.
