

## **Request for Proposal – Steel Tracked Hydraulic Excavator with Brush Head RFP 2024-03 Addendum #3**

**Q#1:** You are requesting an H&H Pro Link Thumb, what is the reason for being brand specific and the reason for a Pro Link Thumb? A pro link thumb will not function properly when the mulcher is attached, it also weighs more than a standard thumb and that added weight working cross track with the mulcher could cause tipping issues.

**A#1:** Brand specific based on previous use and satisfaction, depending on unit chosen will decide thumb chosen.

**Q#2:** You are requesting an H&H 60" Hyd Tilt Ditching Bucket, what is the reason for being brand specific?

**A#2:** Brand specific based on previous use and satisfaction.

**Q#3:** You are requesting a 42" Tooth Bucket, what is the reason for this size of bucket?

**A#3:** The recommended bucket size for a 14 ton Reduced Tail Excavator is 36" We are open to both but a 36" would be preferred.

**Q#4:** You are requesting a H&H Hydraulic Wedge Coupler, what is the reason for being brand and style specific?. We recommend a Hydraulic Pin Grab Coupler for the applications that the municipality will be using the machine for.

**A#4:** We are looking at both options but preferred would be the Hydraulic Pin Grab Coupler.

**Q#5:** You are asking for the Closest Dealer in Kilometers? The address listed is the address for the Kawartha Lakes Public Works Garage.

**A#5:** This should be corrected to the Municipality of Magnetawan Roads Department located at 18 Miller Rd , Magnetawan, Ontario POA 1P0
