

1) Do you think the municipality should invest in electric car charging stations, and, if so, where do you think an ideal location would be?

- Yes
- Yes, across from town hall
- Yes, we have lots of parking space around community centre
- Yes
- Yes, would be good to see car manufacturers pay for it
- No
- Yes
- Yes at the Library easy access
- Yes to support tourism, at empty lot in Mag at main intersection

2) Are you aware of, or have you utilized the municipalities bike share program or Almaguin Cycling routes?

- Vehicle speed limit too high on bike routes
- Yes, but high speed, not monitored
- MOT needs to pave shoulders on Hwy 124/520
- No would if we had actual trails
- Aware but not all roads are equipped to hand vehicular and bikes

3) Street lighting creates a safer community. Are there areas within the municipality that would benefit from new or additional street lighting, that could expand the usage of the areas into dusk?

- Yes, Bait and Tackle or community centre
- We have enough lighting around, don't need more as it will destroy the dark night sky
- Yes, by park and 520 out of town or 510

4) What are the transportation barriers you or someone you know face, and how could the municipality work to improve transportation?

- Guessing some form of public transit would help get employees to work (some businesses struggling to get people but difficult to do)
