1	<p>I believe that they should be regulated to ensure that the septic complies, that rules are established so that they can be good neighbours and respectful as well as ensure that fire code and building codes are followed so that renters will be safe. We currently have a housing crisis and many owners who once rented longer term no longer do as short term brings in way more money. Some short term property owners are renting their places out for up to \$1,000 a night I do NOT want this to become Muskoka. I also see that there is alot of rumors and people not getting the facts and calling the town office instead they are going and getting their facts from Facebook. In particular I know lots of people that have bought and don't even have the properties in their names but in a corporation to me that is a BUSINESS not a family owned cottage trying to make ends meet with the mortgagealso renting your cottage out for \$1,000 a night is not just to cover the bills! that is a business. Some residents do not want to comment on this issue or let their neighbours know that their short term rental is affecting them because some of the owners are extremely aggressive and if you differ with peoples opinions you are attacked! there is alot of rumors going around that are untrue and unfounded! what I see is people wanting fair licensing and I believe that the town is waiting for all the facts to be gathered so that Council can make an informed decision this could take a while and certain individuals who have recently bought rental properties are stirring the pot and creating divide and spreading untrue facts on facebook for their own personal interests of lining their pocketbooks which is getting everyone rilled up !! Wait until the data is compiled and voice your concerns and comments in a constructive manner instead of bullying to get your own way. Magnetawan was here before the big short term rental boom and it will still be here after the licensing if that is what happens. As well from what I can tell the town never said they were going to ban short term rentals and all this referencing of Tiny's By-law did anyone read it? it also does not ban short term rentals from my understanding it bans corporation's from</p>	9/16/2022 11:39 AM

operating short term rentals!! I also see a petition asking for a seat at the table I dont know if anyone knows this but I was under the impression that when a policy or by-law is proposed it typically is in draft and not passed right away that it usually is a few meetings before it is and you can comment to the draft? at least that is what I have observed here as I follow all the meetings, minutes and agenda packages online on the town website as well as where I used to live previously? I feel like people are getting all upset over what they think is going to happen and not getting the facts. I believe fair licensing to ensure people are safe is what is fair.

2	As any other type of business it should be regulated to ensure a level playing field for all concerned, the safety of the renters and neighbours. To ensure that the property is not overloading the septic system and in turn polluting the lake.	9/16/2022 7:40 AM

6	-number of STR owned and operated within boundaries and on properties themselves -should be 4 night minimum -regular inspections -a designated officer to deal with complaints -3 strike rule : all complaints documented. 3rd complaint (no renewal of licence to operate) -	8/31/2022 4:31 PM
7	Being a responsible property owner who depends on short-term seasonal rental income to maintain the property would like to see a fair regulation policy.	8/30/2022 9:13 PM
8	No. There are already rules pertaining to everything from septic capacity to speeding on the road to noise to building codes--- and renters, rental owners and owners alike should follow all the same rules. Rental properties should not have another layer of rules	8/29/2022 12:26 PM
9	This is a money grab for the Municipality, This is just to follow other townships who are doing this. Over the years you have had 6 complaints and 4 of them are from one residence. This is making it bad for all the others trying to pay for their cottage.	8/26/2022 2:53 PM
10	From what I understand, there have not been significant complaints related to STR. Issues in our area are usually related to either permanent residents or owners who visit for weekends.	8/25/2022 5:05 PM
11	Short term rentals are great for the town they help small businesses stay alive grocery stores general stores	8/25/2022 12:47 PM
12	Yes they should be regulated as any other business is. This is to protect the landlord, the tenant, neighbours and the area (ie lake, enviroment, shoreline)	8/22/2022 5:02 PM
13	If the short term rental is over 8 people. The amount of owners cramming in 2nd buildings, studios, bunkies, garage living units is insane! On smaller lakes, we cannot handle the volume of people, pollution, noise etc. Renters typically don't care about the environment impact because they are paying for the right to play hard. Impact on fishing, boating, atving, campfires, garbage, noise etc.	7/10/2022 2:06 PM
14	It is absurd that this community will not allow me to have my daughter and grandson stay intermittently in her trailer on my property, yet next door is allowed to have 12 people stay in their airbnb making noise all day and all nightdisrupting my family's life each and every weekend.	6/24/2022 10:20 AM
15	I do not think short term accommodations should be allowed outside of commercial properties, e.g hotels, motels, resorts	6/6/2022 9:02 PM
16	I believe it is the responsibility of the home/cottage owner to ensure that the short term renters respect the property where they are staying and the neighbours and neighbourhood.	5/5/2022 8:04 PM
17	The municipality should be aware of All homes/cottages being used for short term rentals. The municipality of East Ferris has excellent model for us to use as an exemplar.	5/2/2022 12:35 PM
18	On the question asked here, it would depend on the definition of regulate in terms of short term rentals. We feel more detail is needed in order to express an opinion. With that in mind, here are some of our thoughts. In the past our family and extended family have traveled to different parts of the world enjoying time together, while staying at short term rentals. We do our best to respect the people and environment in every community we visit while supporting their local businesses and economy. We now have a cottage on the Ahmic Lake system that we rent on a short term basis so that families like ours can make memories together at the lake. We have	4/17/2022 6:54 PM

a "renters' code of conduct" that we share with our tenants to educate and emphasize the importance of respecting our neighbours, the lake, and the environment. This was drafted after experiencing bad behaviour from one of our first group of guests, as well as, renters at another cottage close to us. We believe there should be a standard "renters' code of conduct" for all short term rentals. We do have a management company that vets all of our guests based on strict parameters we have set, including families only/no singles. Seventy percent of our rentals are returning families who have become friends and our neighbours have confirmed they have been great renters. Our guests have been encouraged to explore and support local businesses while at the cottage. Each year we are happy to add more to our list of returning families. Having a standard code of conduct along with clear, reasonable consequences for infractions will establish clarity to the expectations and encourage all landlords and tenants to do their best to protect the environment and ensure everyone can enjoy their property and the lake safely. We do feel that more detail as to what is meant by regulate is necessary, including some explanation as to how this would be enforced.

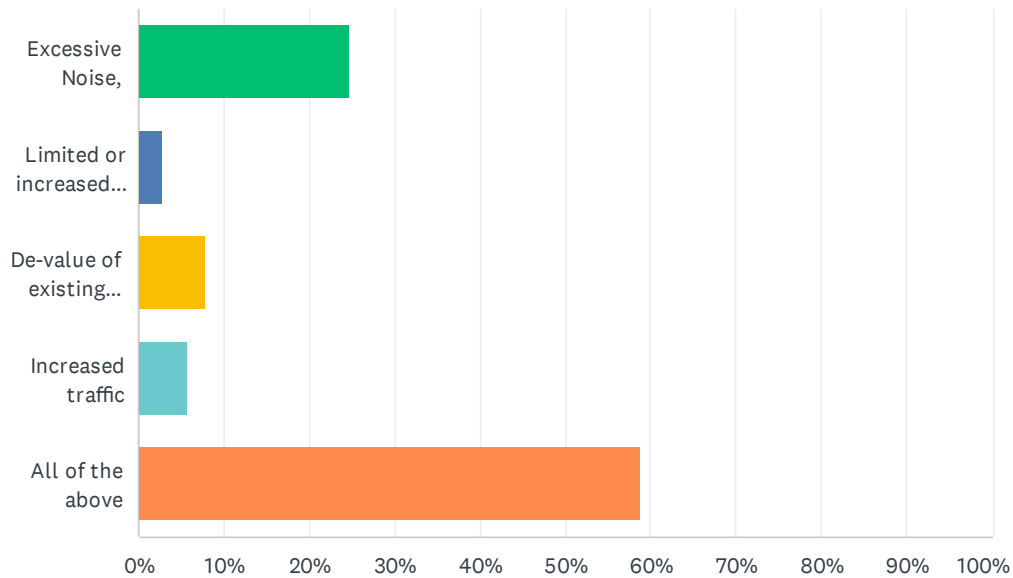

19	With conditions. Encourage small rentals of 4 or less, no license required, put constraints on large group rentals. This is to discourage noise. At this time in the township this is not a big issue. If this was Collingwood, yes it is, but not in Magnetawan Township.	4/12/2022 8:02 AM
20	Very few of them, if any, should be allowed.	2/1/2022 1:34 PM
21	Over occupation of residential homes	12/2/2021 4:39 PM
22	Short-term rentals are a key source of income for some summer families, and renting out their cottages allows them to make enough money to keep their properties in good condition. While I have some concerns about the impact of having short-term renters on the lake, I believe these can best be solved privately and don't need municipality involvement.	11/27/2021 1:54 PM
23	I was very impressed by the report and recommendations Prepared by Trent Lakes municipality on short term rentals. STR are a business activity in a residential area that should be regulated, simple as that.	11/27/2021 1:40 PM
24	Yes, rentals should be regulated so that things like septic beds,etc are within code	11/22/2021 7:34 AM
25	Short term accommodations provide a boost to the Magnetawan economy. People staying at rental cottages buy from many of the shops around town.	11/19/2021 8:31 PM
26	No. Any regulations should focus on noise restrictions, parking, safe boating. etc.	11/19/2021 3:39 PM
27	Short term rentals bring tourism and many economic benefits to the town and surrounding areas. If you decide to tax, zone, or otherwise impede these rentals from occurring it will have a negative affect on businesses in town, who need all the help they can get these days!	11/18/2021 10:29 PM
28	I don't think you should be regulating this at all. I am an owner of a cottage rental and our guests bring a lot of business and tourism dollars to the town and neighbouring towns. We cater only to families and we have not contributed to any noise complaints on the lake. If anything we have increased the value of other cottages on our lake because of how much we have cleaned our property up and completed significant renovations on the dwelling.	11/18/2021 2:32 PM
29	No, I do not feel like it should be regulated. Homeowners already need to follow multiple municipal regulations, we do not need to over regulate short term rentals too. Properties are a private good, that can be used to generate occasional income. It is not a public good, and cannot be assumed if short term rentals are taken away that owners will immediately move to 12-month lease inventory.	11/16/2021 10:55 PM
30	Many issues not currently addressed. Rentals exceed design capacity for septic, no inspection for fire safety, landfill use, business licence, taxation, dwelling zoning limit exceeded beyond what is allowed. Cottage, garage with sleeping, boathouse or bunkie with sleeping. Beds = rental \$	11/16/2021 7:50 PM
31	Yes,but short term should be greater than 6 nights	11/7/2021 12:23 AM
32	Yes, It should suffice to limit rentals to One per Month. So someone could rent it out for say two or 3 weeks to one family, but not rent it again for the rest of the month.	11/6/2021 3:50 PM
33	Rental guest bring a lot of business locally. so they are an asses, but some regulation for accommodation necessary .	10/19/2021 1:32 PM
34	yes, otherwise relevant issues do not get addressed by anyone	10/19/2021 1:28 PM

35	Yes. Perhaps the regulations might be different within the borders of the Village vis-à-vis waterfront properties on the lakes. Certainly, any short-term accommodation less than a week – especially within the Village – would have more stringent regulations. That said, I'm not sure what the nature of those regulations would best be.	10/18/2021 10:50 PM
36	We've experience garbage thrown into your ditch and property this year for the first time. bags ripped open by animals that have paper plates and that kind of garbage. so we know it's from the air b and b's . assuming on our road since we live on a dead end street. Deer Run Road. and we have seen people trespassing on our property as well.	10/16/2021 10:18 AM
37	No and yes. For the reasons stated in the above preamble, yes, regulate. On the other hand the homeowner should have the right to rent out the house to short term residents so the home is never left empty. The problems are mostly on the homeowner re: insurance costs, damage to the home, eviction of bad tenants, etc. I've heard a lot of stories like that for long and short term rentals.	10/16/2021 10:07 AM
38	Very hard to enforce	10/8/2021 11:52 AM
39	We need rules to keep our municipality involved in the community activities	10/2/2021 7:58 AM

32	Corporations should not be allowed be STRs. I read lots of comments on Facebook and it seems those who are fighting against fair licensing are probably corporations who have money to keep buying up properties just for STR. There will be no more long term rentals which we need. Even Toronto has implemented restrictions and licensing on STR because of issues they had with no long term housing. Families renting out to make some extra income but still live here and volunteer and become a part of the community is fine. Corporations just want to make money and don't care about people who actually live here and pay taxes too. .I	9/17/2022 11:35 AM
33	There is a lot of nasty comments on Facebook and I don't think having a license is just about noise . I like that we don't have a noise by law the police is better able to deal with loud party goers . I think if you are a business renting out you should have to follow the rules like ahotel or motel or trailer park and make sure you have insurance and you are up to fire code and you can drink the water and know the rules of the place you are visiting.	9/17/2022 9:35 AM

48	Licensing is not the right approach, the town needs by-laws and By-Law officers. Last summer our full-time neighbour had a party go until 2am, OPP could not stop them, NO By-laws in place was their answer.	9/6/2022 1:15 PM

73	Only excessive noise and traffic only if its going too fast--none of the others are concerns, but worth noting that I have all these concerns with respect to owners who don't rent as well--and in fact on my cottage road the owners cause more problems than the renters. Worth noting also that often times renters end up loving the lake and are looking to buy here and thus more short term rentals might have a positive impact on property values...in addition many shot term rentals augment the cost of ownership and enable people to reach for a more expensive place and pay higher taxes so might be the case that the restriction or elimination of short term rentals in our area would adversely impact property value...I just got back from a vacation near La-Hoya Beach California where short term rentals are prevalent and noted that this is some of the most expensive real estate in the West Coast	8/29/2022 12:26 PM

114	In our experience the # of short term rentals is now at an alarming rate. We listen to Pickle Ball coming from another rental on Wurm Rd that echoes in our bay. Fireworks every time there's a new rental group. Excessive noise due to # of people using the property. Vehicles not adhering to speed limits. Leaving dog poop on side of road. Too many vehicles	5/2/2022 12:35 PM
115	Not all short term rentals should be "painted with the same brush."After reading the comments, it seems that most are concerned with excessive noise, boating safety, and environmental impact. These things can be dealt with in a code of conduct. As cottage owners who rent our cottage out on a short term basis we do our best to ensure our guests are respectful of our friends and neighbours and the environment. Our guests are reminded that sound carries across water and to respect our neighbours right to quiet enjoyment of their property. (No loud music, bad language etc. families laughing and having fun is encouraged) They are also reminded to stay on our property and to keep their dogs on our property. Guests are asked to keep their dogs on a leash when walking on the road to protect the dogs and our neighbours. They are also asked to clean up after their dogs. We provide a bear bin for our guests to leave their garbage. Our septic is made for a larger group than we allow and is placed farther back from the lake than is required. We meet our guests upon arrival to ensure numbers do not exceed our limit. Neighbour called if numbers allowed was exceeded (only happened once and those guests will not be returning) We monitor fire ratings and also remind our guests to check the municipality fire rating. Our fire pit is a small metal bowl on flagstone that has been placed on the property based on advice from an arborist and a fire fighter. A bucket for water is provided. Our guests are reminded that they need a boating licence. In addition, we would like to point out that there are owners who need to be reminded of boating safety and reducing speed when close to shore, people's docks, and in the Narrows. We provide more than adequate parking for our guests on our property. We think there would be increased traffic during the summer whether it was renters or owners traveling to the cottage and that the local businesses who have suffered because of the pandemic will be happy to see these tourists come through their door. What we are trying to say is that not all rental cottages are run in the same way. In fact most owners want their tenants to enjoy their time at the cottage while respecting their property, their neighbours, and the environment.	4/17/2022 6:54 PM

1	Yes. There should be annual inspections for fire, building, electrical, septic, water quality, parking, appliances. Those STRs fighting these regulations are doing so for a reason. If they are running a safe, up to code cottage rental business there should be no problem. There should be random inspections throughout the year, the same as businesses in the area.	9/24/2022 12:12 PM
2	Yes especially those who rent it out all the time. That's a business and should be taxed as such. Licensing makes it safe for those renting	9/16/2022 11:05 AM
3	Yes, any other business being run has to have a business license. If your neighbour started an auto repair or oil spray business next door you would want to ensure that that chemicals/oil etc were handled correctly and to make a point I am not talking about the person that is working on their own car or restoring a car /boat as a hobby this is in reference to running a business with customers coming and going just as the STR who rents out 1 or 2 weeks a year to suplliment costs when they can't use the property themselves as apposed the the person who rents out the entire summer season. Again I believe if you rent out for the majority of the time and/or have multiple properties that are rented out this is not someone hoping to help cover some of the costs of owning a cottage but someone who is running a business and should be treated as such, just as any other type of hospitality business in the area. I am not say ban STR but rather control the situation so that the person who finally has the means to by their dream home doesn't find themselves living in a neighbourhood with nothing but rentals around them in essence living within a resort	9/16/2022 7:40 AM
4	THEY ARE RUNNING BUSINESSES THUS SHOULD BE SUBJECT TO LICENCE, INSPECTIONS, REGULATIONS, REGISTRATION, TAXATION	8/31/2022 4:31 PM

5	Yes, with fair and balanced guidelines	8/30/2022 9:13 PM
6	No--Dont complicate things--if the argument is revenue then Property taxes are paid by rental owners and personal use owners alike--if the community needs to raise more revenue then it should raise taxes for all...not burden a business that is already quite marginal and good for the vibrancy of the community.	8/29/2022 12:26 PM
7	If you are renting for 3-4 weeks to cover expenses, why pay the municipality some of that money. I can agree if someone is renting full time that is a different story.	8/26/2022 2:53 PM
8	This registrations should not be overly expensive or cumbersome or it will be ignored.	8/25/2022 9:45 AM
9	If you are renting out for the majority of time especially during the summer it is a business and should be treated as such.	8/22/2022 5:02 PM
10	I feel all properties need to be subject to noise, septic and cleanliness by-laws.	8/9/2022 6:33 PM
11	what's the point? Even if they get licensed... or fined... they'll just pay it and proceed. It seems in our area bylaws can get get bypassed with enough money!	7/10/2022 2:06 PM
12	Any person operating an ongoing short term rental business should be required to PAY for permits, pay business taxes, and be subject to stringent requirements. ANY infractions occurring on the property should be met immediately with the withdrawal of permits and face restrictive fines. Any area rated as SR should not be permitted at all.	6/24/2022 10:20 AM
13	YES, the municipality should be ensuring short-term accommodations are registered and licensed. The municipality should also limit the number of individuals who are able to rent a short-term accomodation, to avoid large groups who are noisy and have an impact on the environment of waterways and lakes.	6/12/2022 1:50 PM
14	Short term accommodations should not be permitted in private homes.	6/6/2022 9:02 PM
15	Short term accommodations should not be allowed in Shoreline Residential or Rural Residential properties. For example, on Newell Lake at the end of SilverCliff Lane there is an Airbnb that can accommodate up to 20 adults & 5+ infants at one time. This property used to be owned and occupied by two people. Now there are up to 25+ people at a time on a single property and the noise level, lake usage, litter, and traffic is unmanageable. They also changed the natural shoreline by creating a large artificial beach. Its out of control.	6/6/2022 8:15 PM
16	There should be an inspection of the property each year to make sure they are up to code. Only able to rent to # of beds available. No trailers or tents for renters. A significant registration fee.	5/2/2022 12:35 PM
17	This question is worded in such a way that we might want to respond yes to one and no to the other. As far as registration goes it might be helpful to have owner contact information if there is an issue with some of their guests. Other than contact information what other information would you be asking for? We rent our cottage on a short term basis and would be fine with a reasonable licence fee but would like to know what would be done with the money collected. Would it go towards enforcing bylaws/code of conduct or would it go to general revenue? More information in this regard would be appreciated.	4/17/2022 6:54 PM
18	Municipality, if it does choose to license STA, should then put some teeth into follow-up on overseeing issues and problem resolution...not treat as "cash cow".	4/12/2022 10:45 AM
19	4 person rentals, no, larger rentals, yes.	4/12/2022 8:02 AM
20	If short term rental properties are allowed, they should have to abide by strict rules. I'm particularly worried about the excessive noise they could cause.	2/1/2022 1:34 PM
21	Yes for licensing, see Trent Lakes municipal report	11/27/2021 1:40 PM
22	Yes, if someone is renting out their property that is a business and should be regulated as such.	11/22/2021 7:34 AM
23	No. Impossible to enforce and an intrusion on people's privacy. Let the small business person make a living, or help pay for their property.	11/19/2021 3:39 PM

26	Definitely not as we are bringing tourists to the area to stimulate the economy	11/19/2021 5:17 AM
27	If your going to license these types of properties you will have to account for staffing and facilities to run the licensing program. Will the township be able to recover these costs??? How will you carry out enforcement??	11/18/2021 10:29 PM
28	And taxed	11/18/2021 10:29 PM
29	Airbnb yes	11/18/2021 9:49 PM
30	That would be absurd you do a good enough job and deflecting people from visiting why add another barrier?	11/18/2021 9:35 PM
31	I would want to know more about this before I can comment	11/18/2021 2:32 PM
32	In cottage areas I feel that there should be no rental properties. There are numerous camp grounds and camps in there area.	11/16/2021 4:43 PM
33	yes, for properties with no site management to monitor guest, and no for properties with onsite management	10/19/2021 1:32 PM
34	Registration yes for all. Licensing only for rental without yearly management to be responsible. and to cover costs of supervision to replace onsite management	10/19/2021 1:28 PM
35	not sure	10/19/2021 1:25 PM
36	Yes. At a minimum, they would be subject to special local taxes.	10/18/2021 10:50 PM
37	Not allowed at all	10/13/2021 3:58 PM
38	Yes, and "grandfathered" rental properties should be subject to some sort of regulation as well.	10/11/2021 5:38 PM
39	Short terms should be treated as businesses or they will enjoy a financial advantage over the existing commercial establishments who have been paying commercial taxes all along. If I owned a legitimate cottage rental business, I would not be pleased to learn someone was competing with me and not paying comparable taxes.	10/7/2021 5:30 PM
40	The town gets involved in to many things. Short term rentals supply customers to local business to keep small business going. The township does not have bylaw resources to police this. Many property owners use short term rentals to offset high Chapman taxes	10/3/2021 12:22 PM
41	Basically short term rentals should not be allowed. Anything under a month at a time should be prohibited.	10/1/2021 7:13 AM
42	I think the municipality should know how many air b n b there are. If houses are being rented weekly, they should pay commercial tax just like hotels as they are taking business away from hotel, motels, camps that pay higher taxes than residential.	10/1/2021 1:58 AM
43	Something minimal would be fine however a large fee/permit process is unnecessary. Should have different levels ex. Rented 1-100 days a year, 101-200 days, 300+. As some people may have the occasional renters to help afford their second property while others may have the property for the sole purpose of being an income.	9/30/2021 9:23 PM

14	There needs to be regulations and annual review of the number OS short term rentals in an area or street. For example HOLDEN ROAD has changed so. I have in the last few years with a significant number of short term rentals. The impact to other home owners on the street is great. Also...there needs to be restrictions as to how many can be operated by the same person/family/company. Again, for example on Holden Road, one family is now operating 4 short term rentals and has purchased another close by for the same purpose. They are not permanent residents themselves so clearly it is just a money making venture with little regard for the home owners and community impact.	7/13/2022 8:25 PM
15	Airbnb and the like are an abomination. People who rent out a property should be required to be present in that dwelling during the rental.	6/24/2022 10:20 AM
16	rental of shoreline residential should be regulated to ensure large cottages/residences are not permitted. Sound carries on the water and can have an impact well on neighbours, particularly when large groups of people gather. In addition, these can have significant impact on the environment -- both water quality as well as ecology, given short term rentals are often not careful with either.	6/12/2022 1:50 PM
17	Short term accommodation should only be permitted in commercial zones, e.g hotels, motels, resorts	6/6/2022 9:02 PM
18	Short-term accommodations should not be permitted in any of the above. That is what hotels/motels are for.	6/6/2022 8:15 PM

1	STRs will try to say they are unlike AirBnBs but they do in fact rent out for weekends only as well as weeks esp in off season.	9/24/2022 12:12 PM
2	should be capped - minimum of a week	9/22/2022 9:04 PM
3	Places that are rented out all the time are a business.	9/16/2022 11:05 AM
4	minimum 4 night stay	8/31/2022 4:31 PM
5	I rent a cottage here every summer and want to make sure that the cottage is legal and safe for me and my family.	8/29/2022 11:13 AM
6	Should be a min of 6-7 days	8/26/2022 2:53 PM
7	Rather, there should be a minimum stay identified in order to restrict/prevent the possibility of one night or two day big 'parties'.	8/26/2022 2:40 PM
8	No. Don't see the advantage - either for the community or businesses.	8/25/2022 5:05 PM
9	Maybe not cap The stay but put a One week minimum. May eliminate cottages being rented out for one night to have big parties.	8/20/2022 10:36 PM
10	More likely have a minimum number of days, i.e. longer term rentals instead of shorter term	8/19/2022 2:58 PM

monetizing it by advertising on social media that there is a party at the location and charging an admission fee. I could rent it for a MONTH and once I've made my money on the first night, I'd leave with cash in my jeans regardless how long the rental period is. Read the accounts of this happening on line.

13	Longer stays are actually better as it means there is not a rotation of people through a property with a new party every weekend.	6/12/2022 1:50 PM
14	There should be a minimum of one month length of stay.	6/6/2022 8:15 PM
15	Not sure	5/2/2022 12:35 PM
16	Our response is based on our experiences renting our cottage on a short term basis for the past 2 years. Weekend and long weekend rentals usually attract singles looking for a place to party. Also this would involve cleaning and laundry after just 2 or 3 days. Environmentally and financially this does not make sense. Our concern with renting for 28 days or more is that it could lend itself to Landlord and Tenant. If a tenant decides they aren't going to leave it may be difficult to get them out which might be a problem if the tenant is not a "good neighbour" (ie loud, unsafe boating etc. Possibly something that should be researched further. We find renting for a minimum of a week and maximum of two weeks during the summer works well for us and our guests. It allows us the opportunity to maintain our property regularly inside and out. That includes ensuring all garbage is dealt with responsibly, making sure fire pit area is safe etc. We rent to families and it takes a lot of planning and packing to get a family ready for a vacation at a cottage together. Staying for a week makes more sense for owners, renters, neighbours, and the environment.	4/17/2022 6:54 PM
17	Stays of short duration (eg weekend) seem to be more of a problem	4/12/2022 10:45 AM
18	This would be the first step to Big Brother. Be aware that with construction happening here, there is a great need for accommodation for workers. They want 5 day rentals when on site.	4/12/2022 8:02 AM
19	1 week minimum will get rid of the rowdy, don't care who we annoy because we are leaving Monday bunch.	12/1/2021 2:25 PM
20	Don't see a problem with long term rentals. Was it identified as an issue in the Trent Lakes or other municipalities.	11/27/2021 1:40 PM
21	Do not understand this question	11/23/2021 6:27 PM
22	Depends what length of time will be considered short term.	11/21/2021 8:57 AM
23	It is not the length of the stay that is the problem, it's the noise, lack of respect for others, ignorance of how noise travels across water, and ignorance of fire regulations that are concerning. Magnetawan needs an enforceable anti-noise bylaw that will be upheld by the OPP.	11/20/2021 10:25 AM
24	If the town were to cap the length of stay permitted, many cottage owners that are offering short-term dwellings would be forced to sell.	11/19/2021 8:31 PM
25	No short term rentals	11/19/2021 1:15 PM
26	No - I pay my taxes thus I should decide	11/19/2021 11:35 AM
27	Don't know	11/19/2021 9:27 AM
28	Here's a thought. Focus your efforts on trying to create programs and incentives that will PROMOTE tourism in Magnetawan instead of needless by-laws that impede progress. We have a beautiful town that is currently under utilized 10 months of the year.	11/18/2021 10:29 PM
29	Possibly define what amount of time constitutes short term.	11/18/2021 9:49 PM
30	Why in the world should the municipality have that much leverage?	11/18/2021 9:35 PM
31	Anything over 28 day stays becomes a Landlord Tenant agreement so this is beyond municipality jurisdiction	11/18/2021 2:32 PM
32	Minimum stay? Maximum stay. Can see value in both	11/16/2021 7:50 PM
33	yes, see question 1.	11/6/2021 3:50 PM

35	if 'cap' means max, then no. if it means min, then at least 3 nights, 4 days	10/19/2021 1:28 PM
36	yes, if everything is monitored carefully by the owner, then there are no problems with the rental	10/19/2021 1:22 PM
37	Assuming that it's referring to a "maximum" cap, that would depend on whether long-term rental would have any income or property tax implications for the owner.	10/18/2021 10:50 PM
38	I don't know. There are a number of people that rent out their cottages for short term during the summer. I don't know if it causes a problem except for extra boat traffic on the rivers when the renter doesn't respect (or know) the boating regulations.	10/16/2021 10:07 AM
39	None	10/13/2021 3:58 PM
40	Depends on the nature of the rental. Rural and village rentals may benefit those in need of housing and should not be capped. Shoreline rentals are likely out of reach financially for most to consider renting for more extended periods.	10/11/2021 5:38 PM
41	Who would monitor that? Who has time? Either let people rent or not.	10/1/2021 1:58 AM
42	What does it matter if there is one person there for 21 days or 3 people there for 7 days each?	9/30/2021 9:23 PM
